

Maintaining a small footprint, with effectiveness and efficiency at the heart of our business model:

Project completion with zero waste.

Utilising two of the worlds leading independent environmental management and auditing bodies, we've achieved a lean and green status to be proud of. While maintaining our high standard for health & safety and operational excellence.

ecovadis

 Avetta.

Helping you meet your environmental goals

.....

We're able to dive into machine energy usage and efficiency, chemical reports, or better - utilize our Ironsides Software packages for realtime, in-depth, comprehensive reporting...

safe and sustainable by design

'safe and sustainable by design' has been our environmental mantra since 2020.

It represents a commitment to the lifetime effects of our products & services and those of our customers and suppliers

Committing to our shared future

.....

An employee owned company able to invest in the things that matter to us - resulting in the guilt free, future friendly, family centered approach that supports a better world for our children...

Fingerprints

Being a family business makes us agile and lightweight, and with that comes a shallow footprint.

Beyond the footprint of Friedheim International, we each leave our own individual mark on the world. It's our responsibility to ensure that while Friedheim minimises its own impact, as **individuals** we all embody the safe & sustainable values in everything we do. .

#safeandsustainablebydesign
